

TECHNICAL SPECIFICATION

Receiver Dimensions: 113 x 82 x 30 (H/W/D)

Controller Dimensions: 85 x 75 x 23 (H/W/D)

Power Supply: AC200-240V, 50/60HZ

Load Current: 12/16 amp

Set-Point Temperature: 5°C to 35°C

INFRARED ACCESSORY STARGO CONTROLLER

Wiring Diagram for STW535

PART NUMBER: STW535

Control your infrared heating with our sleek, 'Stargo' programmable thermostat. Offering accurate temperature control with an inbuilt sensor. Battery powered wireless control allowing the unit to be situated anywhere in the room. Backlit LCD screen for contemporary styling. 16AMP receiver to cater for different types of heating and wiring conditions.

INSTALLATION RECOMMENDATIONS:

- ✓ Up to a maximum loading of 3KW and additional use of a contactor this controller can be used with a multitude of heaters.
- ✓ Comes with an external sensor probe for areas where a controller needs to be away from the temperature sensing area.

Design will blend in easily with a range of decors having a black and white edgeless finish means that it gives you a modern look to wherever you put the controller.
